

## 20CYS202 – User Interface Design

### AUMS - User Analysis

**Name :** SERAN PANDIYAN | P

**Roll no :** CB.EN.U4CYS21069

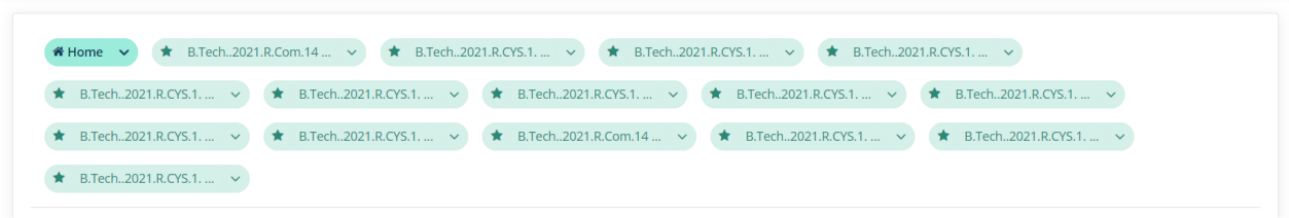

**Sign In page:**

The page is mostly empty and filled with solid colour and there is information regarding which branch this aums is used for (like Chennai or Coimbatore) and there is no hover animation or colour change in login button.

So there could have details specifying which branch aums they are going to login .

When we enter username and password in the text box the text colour is not bold and dark enough to see the details we have entered.

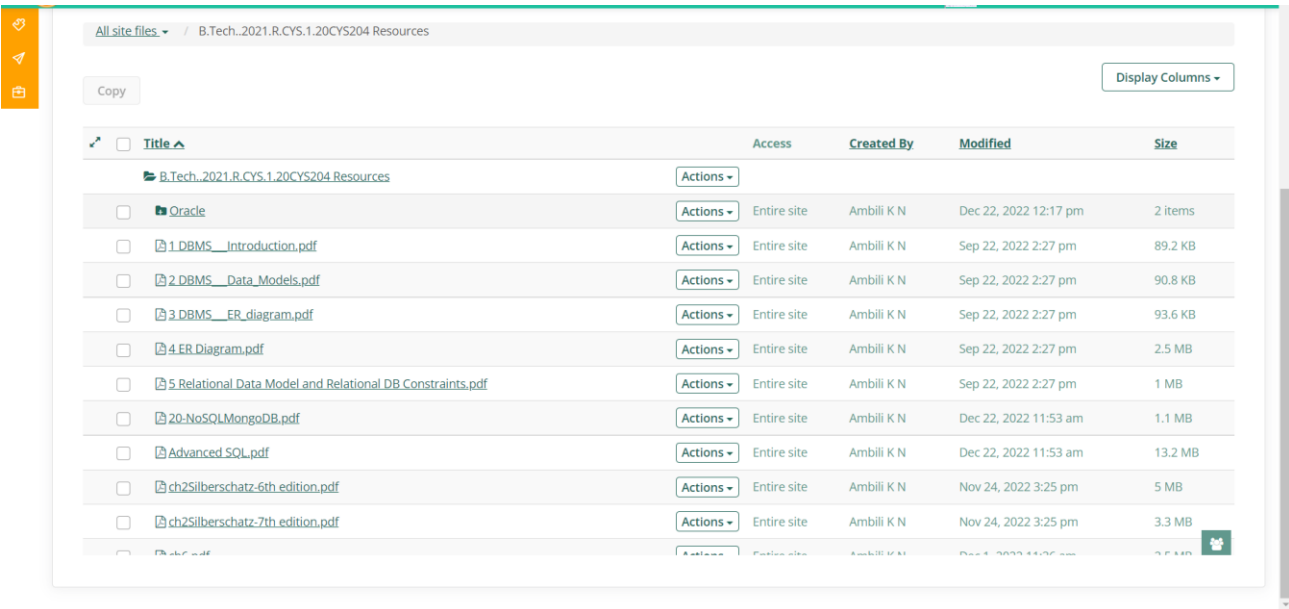

Subjects/course tags:

Here in the course code we could not even fully see the course code and we have visit all the course to completely see the code.

Instead having course code we could have subject name which would have been easier to access.

Resource page:

In the resource page of each subject the resource box has not been well configured as many resources cannot be accessed and they can only be sorted with respect to date and then accessed.

Top Navigation bar:

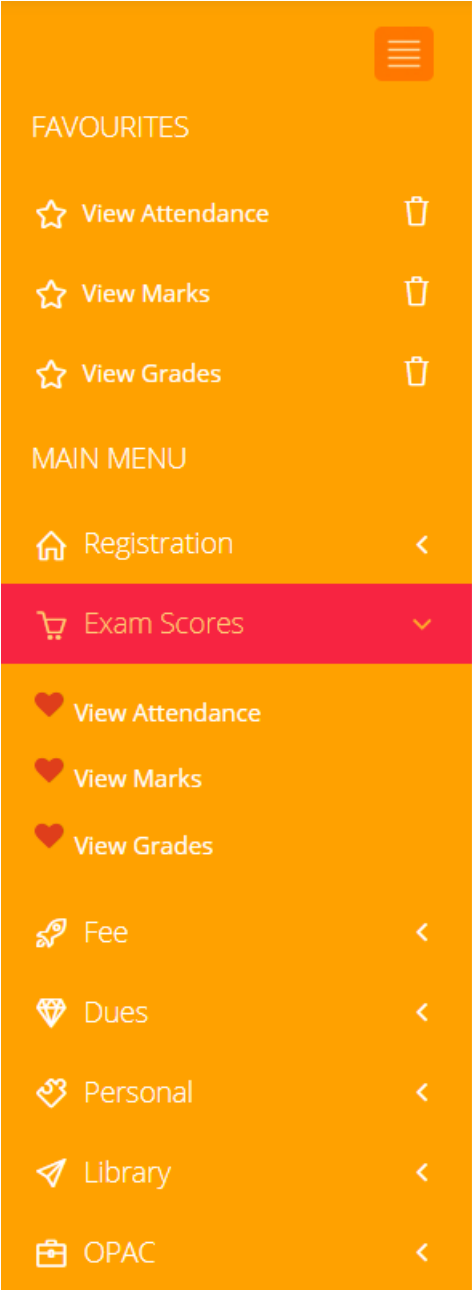

In the top navigation bar the icons are placed properly and hover is cut through half and the image is not clearly visible. Welcome message could have been bigger.

Marks column:
